Chuck, Debra, Linda – WD would like to share the GW investigation with WDNR as soon as possible (Thursday?). We don't know if the website will be ready this week and don't want to wait too long to share the data with WDNR since the informational meeting is fast approaching. We will need to coordinate with WDNR before the informational meeting. Jim Zellmer has been identified as WDNR's POC for this issue. WDNR is planning to be at the informational meeting on the 17<sup>th</sup>. I believe the WDNR could also share the information with CSD prior to our release of the data to the general public. We should assume that will be the case by sharing it with WDNR. Let me know if you have any concerns with the message below.

*Jim – I have been asked to provide you the data collected in the May 2018 GW investigation in Juneau County. EPA plans to release this information in response to a FOIA as well as by EPA website for the general public website no later than July 16, 2018. We would also like to schedule a call with WDNR to answer any technical questions and discuss next steps prior to the informational meeting. Let me know who we should work with to arrange the call. Thanks.*
